HILVER R. AGLANAO

Quezon City | P: +639765818409 | aglanao.hilver.rivel@gmail.com

PROFESSIONAL SUMMARY

BS Information Technology graduate with hands-on experience in IT support, hardware troubleshooting, networking, and technical operations. Skilled in system support, network configuration, team coordination, and problem-solving, with additional experience in software development, IoT, data analysis, AI integration and automations.

TECHNICAL SKILLS

• IT Support & Hardware: Hardware Troubleshooting, PC Assembly & Maintenance, Operating Systems, Peripheral Configuration, Server Setup
• Networking: TCP/IP, VLANs, Routers, Switches, Access Points, Network Troubleshooting
• Software & Development: JavaScript, Python, MERN Stack, HTML, CSS
• Data & Productivity: Microsoft Excel, Google Sheets, Pivot Tables, INDEX/MATCH, Data Validation
• Livestream & Technical Production: OBS Studio, Capture Cards, Audio Mixers, Lighting Systems
• Other: IoT Systems, Machine Learning, RFID, Ultrasonic Sensors

WORK EXPERIENCE

VIETTHI GLOBAL TRADING CORPORATION BGC, Taguig City
IT Support Specialist *(E-Commerce & Livestream)* Sept. 2024 – Aug. 2025

- Executed end-to-end studio technical setups utilizing OBS, capture cards, audio mixers, and lighting, delivering daily live-stream monitoring ensuring reliable and uninterrupted broadcasts on TikTok, Shopee, and Facebook.
- Provisioned, maintained, and troubleshot hardware endpoints for e-commerce operations and KOL staff to eliminate downtime and ensure continuous productivity.
- Optimized local network infrastructure by configuring private networks, router VLANs, switch settings, and Access Points to maintain stable network connectivity during core working hours.

BOUNDLESS AI INC. ***(Contracted to OpenAI)*** Dapitan St., Sampaloc Manila
Team Supervisor Aug. 2025 – Present

- Supervised daily production workflows and task tracking to ensure team adherence to tier-specific guidelines and quality standards in fast-paced game testing and AI training environments..
- Monitored daily task assignments and production status to ensure efficient task distribution and timely project execution.
- Served as the operational escalation point for daily production issues, facilitating rapid coordination between QA, IT, and Project Management to maintain client service-level agreements (SLAs).

UNIVERSITY PROJECTS

CLEANOVA: The Effectiveness of Automated Bin Monitoring and Notification Systems for Optimizing Waste Collection Efficiency June 2025

- Developed an IoT-based waste monitoring system using ultrasonic sensors and RFID authentication.
- Implemented real-time notifications to monitor bin status and support more efficient waste collection.
- Integrated sensor-based monitoring and automated notification functionality into the system.

AGRIPREDICT: Crop Yield Prediction and Farm Management System using Regression Algorithm June 2024

- Developed a crop yield prediction system using machine learning regression algorithms.
- Built a web-based dashboard for crop monitoring and irrigation alerts.
- Applied data-driven prediction techniques to support farm management decisions.

EDUCATION

QUEZON CITY UNIVERSITY Quezon City
Bachelor of Science in Information Technology June 2026
Relevant Coursework: Data Analysis, Computer Hardware, Software Engineering, Operating Systems, Algorithms, AI Integration, IoT Embedded Systems.

CERTIFICATIONS & TRAININGS

- Online Course in Management – Coursera
- Embedded AI Implementation on IoT Devices - Colegio De Sta. Teresita De Avila
- Introduction to Data Science - DICT
